

Welcome to Summer Maritime Academies, 2018!

Our experienced team of educators are looking forward to welcoming rising 1st-6th graders for the fun and exciting Academy dates listed below! The curriculum for each Academy has strong STEM components, mixed in with art, music, and fun! Choose one, two, or all three weeks to attend! Academies start at 8:30 and end at 3:00 each day. Please visit our website for more details, or email Amy Raley at araley@gulfquest.org.

June 25-June 29: “Rising Tides, Racing Fins: Movement & Motion on the Gulf of Mexico”

Forget your fidget spinners, because GulfQuest has better ways to keep your mind in motion! During this week of Academy your hands will be busy while you experiment with propulsion and ship design. With other cadets you will explore wind and water currents, and become a marine biologist observing how marine life moves through the water column. Step up to the challenge of navigating our local waters using nautical charts and GPS. To top off the week you and your fellow cadets will design your very own exhibit to be displayed at GulfQuest! This Academy is perfect for the kid who loves action and variety!

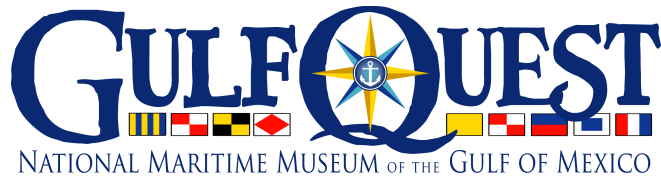

July 9th- July 13th: “Signals, Sounds, & Stars: Communicating Above & Below the Waves”

Anyone can send a text message, so leave your phones behind! During this exciting Academy GulfQuest cadets will learn some of the unique and quirky ways humans and animals communicate on the Gulf of Mexico! Who needs Snapchat and Instagram when you can send secret messages using Morse code, nautical flags, and echolocation? Cadets will also meet and interview a biologist studying whale sounds in Alaska.... through SKYPE! By the end of the week cadets will build and design their very own exhibit to be displayed at GulfQuest. This Academy is perfect for the kid who loves adventure and a challenge!

July 16th-July 20th: “Scientists, Sailors, & Citizens: People Living & Working on the Gulf of Mexico”

Calling all kids! Are you looking for adventure and fun this summer? This Academy at GulfQuest is perfect for you! As a cadet, you will meet a local scientist for a once in a lifetime learning experience in our exhibits! You will also take an amazing journey with experienced educators at GulfQuest, who will introduce you to the exciting world of boat captains, bar pilots, fishermen, conservationist, and cartographers! Throughout the week you will work with a team of other cadets on your very own engineering project: building your own exhibit to be displayed at GulfQuest! Join us for these and other fun summer activities and projects!

Cadet Information

Cadet's Name: _____ Entering Grade: _____ Age: _____ T-shirt size* (\$10.00): _____

Cadet's Name: _____ Entering Grade: _____ Age: _____ T-shirt size* (\$10.00): _____
