

Treasures of the Sea

Glass Tile Campaign

GulfQuest invites you to become part of Mobile's new maritime museum by participating in a one-of-a-kind donor recognition wall. This sculpture will display the names of donors on colorful glass tiles adorned with depictions of the diverse marine life of the Gulf of Mexico — the "treasures of the sea" from this vital region.

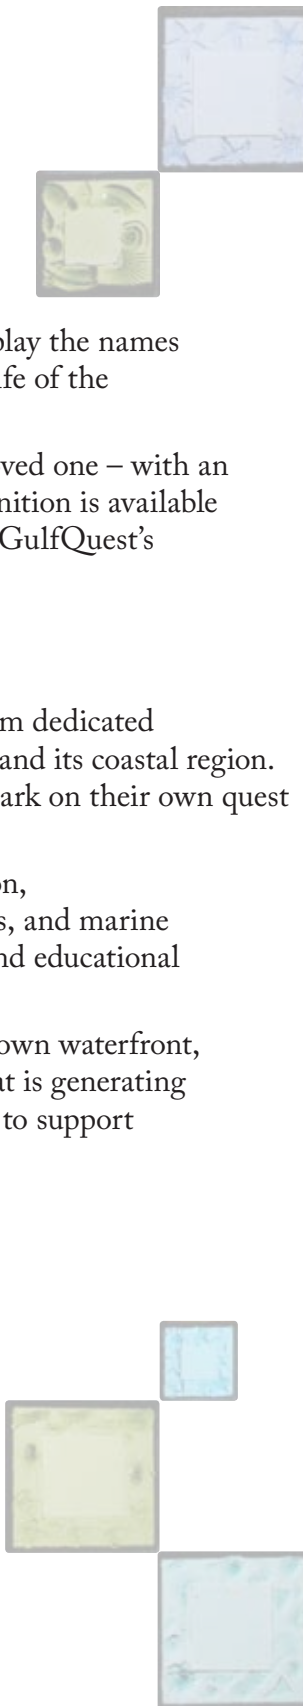

Now is your chance to honor your family or your business – or memorialize a loved one – with an inscribed tile. Each tile will display the names of multiple donors. Donor recognition is available at four levels, ranging from \$250 to \$1,000. Your donation will help underwrite GulfQuest's interactive exhibits and infrastructure.

About GulfQuest

Projected to open in late 2012, GulfQuest will become the first maritime museum dedicated to celebrate the historical, economic and cultural significance of "America's Sea" and its coastal region. GulfQuest will feature interactive exhibits designed to encourage visitors to embark on their own quest to explore the Gulf of Mexico.

GulfQuest's exhibits will address an array of topics including maritime navigation, trade routes, ports and commerce, shipbuilding, deep sea exploration, shipwrecks, and marine and coastal ecosystems. In addition, GulfQuest will offer traveling exhibitions and educational programs for a wide range of audiences.

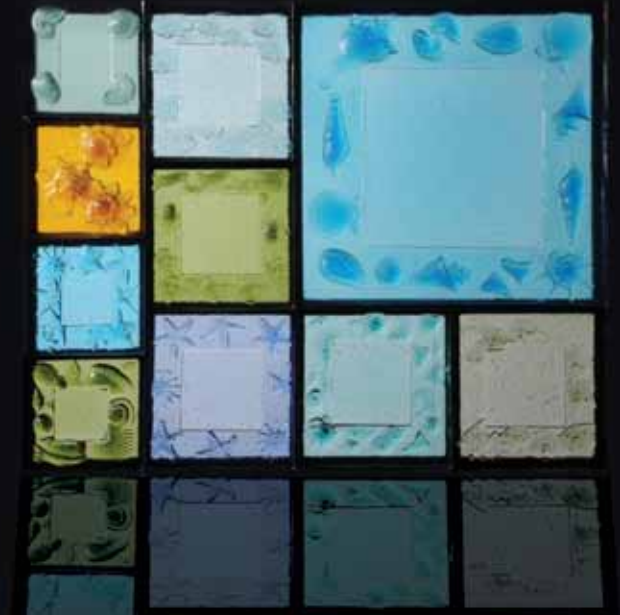

The museum's building is being constructed by the City of Mobile on the downtown waterfront, while the exhibits are being planned and funded by a non-profit organization that is generating private donations. The *Treasures of the Sea* tile program offers you an opportunity to support the museum's capital campaign and the goals of GulfQuest.

Treasures of the Sea

Donor Wall Sculpture

This breathtaking glass sculpture will be located near the front entrance of GulfQuest for all to see. Visitors can explore the names of donors to the *Treasures of the Sea* campaign as they admire the beautiful array of glass tiles, featuring likenesses of Gulf marine life molded in kiln-cast, deep-relief glass. By day, the sun will shine through the colorful tiles; at night, they will be illuminated for a spectacular view of the outdoor sculpture.
